

Not just another pair of welding gloves..

TEGERA Swedish Welding Gloves by European Glove Powerhouse - Ejendals

The welding glove market has always focused on low cost. Swedish brand, TEGERA, from Ejendals instead chooses to focus on value. Ejendals provides welders with the highest quality welding glove leather, ergonomically designed to provide the best fit for the world's most complex tool - the hand! By paying a premium price in the short term, the welder is more comfortable, more precise and pays less in the long run. TEGERA welding gloves are built to outperform and outlast!

TEGERA126A - TIG Welding Glove
